

ÉCOLE BELLOUET CONSEIL VANILLA MACARON

Ingredients

VANILLA MACARON SHELLS

250 g ground almonds

250 g icing sugar

2 g Madagascar Bourbon

vanilla powder

100 g egg whites

225 g sugar

60 g water

80 g egg whites

VANILLA GANACHE

300 g cream

20 g Madagascar Bourbon vanilla extract with seeds

1 g Madagascar Bourbon

vanilla powder

400 g white chocolate

50 g cocoa butter

Preparation

VANILLA MACARON SHELLS

In a mixing bowl with a paddle attachment, make an almond paste with the ground almonds, icing sugar, vanilla powder and the first quantity of egg whites. Make an Italian meringue with the sugar and water cooked to 118°C and poured over the second quantity of egg whites which are being slightly whisked. Allow the meringue to turn for a few minutes and then pour (still warm at 40°C) onto the almond paste little by little. Make sure not to make any grains in the mixture. Work by hand and 'macaroner' the mixture and pipe onto a "silpat" sheet or onto sheets of silicon paper spaced regularly. Bake the macarons in a fan forced oven at 150°C for 15 min. Allow to cool.

VANILLA GANACHE

In a saucepan, heat the cream, vanilla extract and vanilla powder. Pour the boiling mixture over the white chocolate and the cocoa butter.

Mix together then cover with film on contact with the ganache. Cool down the mixture in the refrigerator overnight.

ASSEMBLY AND FINISHING

Turn over half of the macarons, then using a piping bag fitted with a plain no°12 nozzle, fill generously with the vanilla ganache. Close the filled macarons with a macaron of a similar size.

Allow the macarons to mature overnight in the refrigerator before freezing or tasting.
